

Heart and Will

Providing Healthcare and Compassion for Haitians

After many years of reflection, Fr. Raphael Paul has decided to “give back” to Haiti by delivering medical services to Haitians with no access to healthcare. In gratitude for all the blessings he has received in life, Fr. Raphael Paul would like to build:

- a modern hospital to alleviate the misery and the hopelessness of the people in Haiti.
- a vocational school/ healthcare training school so Haitians can learn to serve their neighbors in need.
- a guesthouse/lodging for family members of the patients receiving treatment.

How can I help?

Make a donation via PayPal on the website to the project. The project also needs architects who can design the hospital buildings and engineers who are knowledgeable in hospital construction. AND anyone people who would share the vision and be able to donate time, talents, treasures, and most especially prayers.

Time, Talent or Treasures

We are called to give of our time talent or treasure. How could you support us with your time, talents or treasure? Here are some ways:

- Monetary Donations
- Construction Assistance
- Training Assistance

Fr. Raphael Paul consecrating the grounds of the hospital in Haiti.

To mail a check to the organization -
